

TOYOTA OPTIO L-SERIES

LOW LEVEL ORDER PICKER

LOW LEVEL ORDER PICKER

Level Up Your Picking Game
Take your efficiency to the next level

Strengthening Your Retail Operations

The Toyota Optio L-series is designed to meet the evolving demands of the retail market. With a strong focus on ergonomics, productivity and safety, this updated range brings innovation and efficiency to your operations.

Why Choose the Toyota Optio L-Series?

The new L-series offers a host of enhancements that improve operator comfort, reduce energy consumption and boost overall performance.

Key Features & Benefits

Re-Designed Truck & Styling –

Modern, sleek design that reflects Toyota's commitment to innovation and user experience.

Lower Weight = Lower Energy Consumption –

Optimised for efficiency, helping reduce operational costs.

Reduced Vibrations –

Enhanced comfort and reduced fatigue for operators during long shifts.

New Steering Wheel –

Improved grip and control for smoother operation.

Lower Steering Height –

Better ergonomics for a wider range of operators.

Key Features & Benefits

Larger Operator Space –

More room for movement, enhancing comfort and productivity.

Knee Pads as Standard –

Added protection and comfort during operation.

Integrated Handles in Backrest –

Improved manoeuvrability and ease of use.

Walkie Buttons on All Models –

Convenient controls for walking mode across the range.

Increased Picking Height –

Reach higher shelves with ease, improving picking efficiency.

Integrated Daytime Running Lights & LED Warning Lights –

Enhanced visibility and safety with blue/red LED alerts.

Smart Storage Solutions –

Keep tools and essentials within reach, reducing downtime.

Easier Step-In –

Quick and safe access to the operator platform.
